

Software Product Description

Product Name:- VBS PREMIUM Broker Agency™, Version V6.0.0

Date Of Publication:- 30th November 2006

Brief Description:- VBS PREMIUM Broker Agency is a powerful business tool that provides the facilities for policy management, client servicing, banking, margin analysis and handling of new types of business. Premium is an effective and secure accounting tool which provides a complete accounting system which is fully integrated to the Vital Financial system. This includes such modules as General Ledger, Accounts Payable, and Accounts Receivable, thus avoiding double handling and ensures accounting and other financial data is always up to date. The Premium system has all the accounting rules built in thereby automating the necessary report procedures.

VBS PREMIUM produces comprehensive reports on customer service levels, client and insurer notices, policies due for lists, insurer payments, amounts not collected sales analysis over branches, agents, insurers and more.

Extensive reporting is built into the VBS PREMIUM system. Additional reporting is available from other products such as Digital Datatrieve, IQ Objects Report Writer and various other 3rd party report writer and query tools.

VBS PREMIUM has tools for the upload and extract of application data from PREMIUM to various spreadsheet products for further analysis and reporting.

Hardware Requirements:- Digital VAX 3100 Model 85 or Larger

32(VAX) Megabytes of memory minimum for the first 8 users which includes the OpenVMS operating system requirements. Allow 2(VAX) megabytes of memory per additional 2 users or if additional 3rd party products are interfaced.

2 Gigabytes of disk required for minimum system configuration. Additional disk capacity determined by 'Sizing Requirements Questionnaire' completed by the customer.

Digital VT200/300/400 or VT500 Series terminals are 100% compatible including Digital DECWindows workstations and PC's with terminal emulators (SmarTerm, PATHWORKS VT320 Terminal Emulator etc..)
